Bible Story

Moses was worried about whether the Israelites would believe what he would tell them, that he would lead them out of slavery. Little did he know that God was going to give him power to do amazing things. God showed Moses that he had the power to do two powerful signs, turning his rod into a snake and back again, and giving his hand a skin disease and curing it. God told Moses that even if these did not make the Israelites believe, another sign would. Moses was still worried because he had a speech issue. But God comforted him, yet Moses still asked God to choose someone else. God was angry, but also understanding of Moses and told him that Moses' brother Aaron would help him. The Lord told Moses to go back to Egypt, so Moses started his journey.

There was a problem, though. Moses had disobeyed one of God's commandments, so God planned to punish him. Moses' wife realized what was wrong and made things right again. Later, Moses and Aaron met and talked to the Israelite people about God's plan. The Israelites believed what they said and worshiped God.
